

JOHNSON KEFAS MONCHERE

Nairobi, Kenya | +254 741 444 080 | johnsonkefas00@gmail.com | LinkedIn: linkedin.com/in/johnson-monchere-6b796518a | GitHub: github.com/johnson-kefas | Tableau: public.tableau.com/app/profile/johnson.monchere/vizzes

PROFESSIONAL SUMMARY

Research Scholar and MSc Data Science and Analytics candidate at Strathmore University with a BSc in Mathematics and Computer Science, Statistics option, and hands-on experience in applied research, national survey data collection, CRM analytics, business intelligence, and data quality assurance. Skilled in Python, R, SQL, Excel, SPSS, Power BI, Tableau, ODK, KoboToolbox, and CSEntry/CSPro. Strong grounding in statistics, machine learning concepts, exploratory data analysis, ETL, dashboard development, data visualization, survey design, and reproducible analytical workflows. Experienced in transforming raw field, CRM, and operational data into validated datasets, analytical reports, dashboards, and decision-ready insights for research, governance, and business teams.

TECHNICAL SKILLS

Programming and Analytics: Python, R, SQL, Excel, SPSS, Git, GitHub, Jupyter Notebook, Google Colab

Python Data Stack: Pandas, NumPy, Matplotlib, scikit-learn, data cleaning, feature engineering, exploratory data analysis

Machine Learning and Statistics: supervised learning, unsupervised learning, regression, classification, clustering, predictive analytics, model evaluation, hypothesis testing, confidence intervals, survey analysis, sampling concepts

Business Intelligence and Visualization: Power BI, Tableau, Excel dashboards, PivotTables, Power Query, KPI reporting, data storytelling, management reporting

Data Management: data validation, ETL workflows, data quality assurance, relational databases, data documentation, codebooks, reproducible analysis, data governance, secure data handling

Digital Data Collection: ODK, KoboToolbox, CSEntry/CSPro, SurveyCTO, Google Forms, mobile survey tools, questionnaire design, skip logic checks, field data quality control

Research and Communication: research design support, stakeholder reporting, technical writing, literature reviews, research ethics, field coordination, presentation of findings to technical and non-technical audiences

EDUCATION

Master of Science in Data Science and Analytics | Strathmore University, Nairobi, Kenya | Ongoing

Bachelor of Science in Mathematics and Computer Science, Statistics Option | Multimedia University of Kenya, Nairobi, Kenya | Second Class Honors, Upper Division | Graduated 27 October 2023

PROFESSIONAL EXPERIENCE

Research Scholar | Strathmore University | June 2026 to Present | Nairobi, Kenya

- Support applied data science and research projects by designing workflows for data collection, cleaning, validation, analysis, visualization, documentation, and reporting.
- Apply exploratory data analysis, statistical modelling, machine learning concepts, predictive analytics, and reproducible notebook-based workflows to generate evidence for decision-making.
- Clean, transform, and manage datasets using Python, R, SQL, Excel, and structured documentation practices, ensuring consistency, traceability, and analysis-ready outputs.
- Develop analytical reports, dashboards, and visual outputs using Power BI, Tableau, Excel, and Python visualization tools to communicate insights to technical and non-technical stakeholders.
- Support digital survey operations using ODK, KoboToolbox, CSEntry/CSPro, SurveyCTO-style workflows, and structured forms, including instrument review, validation checks, data quality monitoring, and field protocol alignment.
- Contribute to research reports, literature reviews, data dictionaries, codebooks, presentations, and technical documentation while maintaining ethical data handling, confidentiality, and reproducibility standards.

Research Assistant | Ethics and Anti-Corruption Commission (EACC) | April 2025 to September 2025 | Nairobi, Kenya

Project: Kenya National Gender and Corruption Survey (NGCS) 2025

- Conducted national-level field data collection, validation, and quality assurance for NGCS 2025, with fieldwork across Kakamega, Vihiga, and Nairobi.
- Collected and reviewed survey data using CSEntry/CSPro and KoboToolbox, ensuring compliance with research protocols, skip patterns, completeness checks, and data integrity requirements.
- Supported implementation of survey modules covering gender-specific dimensions of corruption, public awareness, access to anti-corruption services, and effectiveness of anti-corruption interventions.
- Applied data quality control procedures including inconsistency checks, duplicate review, respondent verification, issue logging, secure data handling, and daily validation of submitted records.
- Collaborated with multidisciplinary stakeholders including EACC research teams, Kenya National Bureau of Statistics (KNBS), United Nations Office on Drugs and Crime (UNODC), and local administration teams.
- Prepared field summaries and documented emerging data issues to support cleaning, analysis readiness, and evidence-based reporting.

Data Analyst Intern | AMG Realtors | May 2024 to October 2024 | Nairobi, Kenya

- Managed and analyzed more than 10,000 CRM leads in Zoho CRM and Excel-based datasets to evaluate lead conversion, buyer behavior, sales funnel performance, and high-potential customer segments.

- Cleaned, standardized, and organized client, property, inquiry, and marketing data to improve segmentation, forecasting, campaign analysis, and management reporting.
- Developed reports and dashboard-ready outputs using Excel and Power BI-oriented workflows to track sales performance, marketing channels, customer inquiries, and property demand trends.
- Conducted exploratory analysis of digital marketing and prospective buyer data to build buyer profiles, assess campaign effectiveness, and support targeted sales strategies.
- Analyzed customer service and inquiry data to identify recurring pain points, process bottlenecks, and response gaps, leading to recommendations for improved customer experience.

ADDITIONAL EXPERIENCE

Business Development and Sales Extern | Thematic | January 2024 to April 2024 | Remote

- Conducted market research and pipeline analysis to identify high-potential YouTube podcasters for partnership opportunities, contributing to a 20 percent increase in qualified leads.
- Synthesized creator feedback into actionable insights on product needs, positioning, outreach messaging, and lead engagement strategy.

Student Leader | Health and Environmental Club, Multimedia University of Kenya | September 2021 to April 2023 | Nairobi, Kenya

- Led conservation, recycling, tree-planting, and environmental awareness initiatives while coordinating student volunteers, faculty, and university stakeholders.
- Managed club communications, outreach content, and project reporting, strengthening leadership, coordination, and community engagement skills.

SELECTED CERTIFICATIONS AND TRAINING

- AI for Research, Insights and Data | PoliSync | May 2026
- AI-powered Content, Storytelling and Advocacy | PoliSync | May 2026
- Python for Data Science | IBM | December 2025
- McKinsey.org Forward Program | McKinsey and Company | July 2025
- Data Fundamentals | IBM | October 2024
- Blockchain Mastery: Advanced Corporate Solutions | ESCP Business School | December 2024
- Protecting the Rights of the Child | US Institute of Diplomacy and Human Rights | July 2024
- Business Development and Sales | Thematic | April 2024
